STEP

Combining stunning design and proven robust technology, the STEP free standing range from Coffetek is at the cutting edge of vending dispense systems.

Finished in smoked glass the angular design with patented In-Touch user interface is akin to many consumer electronic devices with large drink button icons. A 12 inch video display provides user instructions, vend sequence progress and useful information such as nutritional content and calorific values.

Available in single fresh brew tea or Bean to cup \ fresh brew coffee the step provides a complete range of coffee shop style drinks – anything from sophisticated continental coffee blends to fresh leaf tea and indulgent hot chocolates;

Drink Selection

| | SFBT | Bean to Cup / Fresh Brew Coffee |
